2. The company:

a. Has no authorized share capital,

b. Is to be carried on without pecuniary gain to its members and

c. Any profits or other accretions to the assets of the company are to be used in the furtherance of the company's undertaking.

3. Restrictions on the undertakings that the company may engage in:

The Company shall operate exclusively for lawful non-profit and public-benefit purposes. The Company shall not engage in party-political campaigning or activities intended primarily to advance a political party or candidate, nor shall it promote any particular religious belief. Nothing in this provision shall prevent the Company from engaging with government authorities, contributing to public policy discussions, advocating environmental protection or promoting maritime safety and responsible coastal management in furtherance of its objectives.

4. The business of the Company shall be strictly of a charitable and benevolent nature primarily to provide:

The Company is established for the benefit of the people of Grenada, its coastal communities, marine environment and users of its coastal waters.

Its principal objectives shall be:

a. Marine Conservation and Environmental Protection

To protect, preserve, restore and improve the marine and coastal environment of Grenada, including marine habitats, biodiversity, water quality, fisheries resources and the sustainable use of coastal waters.

b. Maritime Safety and Responsible Mooring Management

To promote safe, responsible and environmentally sustainable anchoring, mooring and vessel operations through education, voluntary registration, inspection arrangements, maintenance programmes, safety initiatives and cooperation with the relevant authorities.

c. Community Development and Economic Participation

To support the social and economic wellbeing of Grenadian coastal communities through local employment, skills development, education, training and opportunities for local enterprises to provide services associated with the service and maintenance of vessels, marine conservation, maritime safety and responsible recreational boating.

d. Public Education and Awareness

To advance public understanding of marine conservation, safe boating practices, environmental responsibilities, waste management and the sustainable use of Grenada's marine and coastal resources.

e. Cooperation and Public Service

To work collaboratively with government agencies, marine protected area management bodies, community organizations educational institutions, businesses, vessel owners and other stakeholders in proper management of the marine resources and advancing conservation, maritime safety and sustainable coastal development.

In furtherance of its objectives, the Company may undertake the following activities, provided that these comply with applicable laws and any required government authorizations:

1. Establish, operate and maintain voluntary registers of moorings, vessels and associated marine facilities, including the collection and maintenance of relevant inspection, ownership, permit and compliance information.

2. Establish, commission, coordinate or support independent inspection and maintenance programmes for moorings, vessels and associated marine infrastructure, using appropriately qualified service providers. Seek contractual means to prevent unattended and abandoned vessels.

3. Develop and administer standards, codes of practice, registration criteria and operating procedures designed to improve maritime safety and environmental protection.

4. Assist vessel owners and mooring operators in understanding and meeting applicable statutory requirements, including relevant government approvals, permits and licenses. 5., Promote, coordinate or facilitate arrangements for vessel guardianship, maintenance, monitoring and other services supporting the safe management of attended and unattended vessels.

5. Establish, support or coordinate services for waste collection, recycling, pollution prevention, environmental monitoring, marine habitat protection and other activities that reduce the environmental impact of vessels and moorings.. Organize, commission or support maritime safety patrols, emergency preparedness, assistance to vessels in distress and related services, within the Company's capabilities and in cooperation with the competent authorities.

6. Support the development and participation of Grenadian businesses, contractors and service providers, particularly through training, employment opportunities and the provision of environmentally responsible marine services.

7, Conduct or support educational programmes, workshops, public awareness campaigns, environmental research and community projects relating to the Company's objectives.

8. Raise funds through donations, grants, sponsorships, membership contributions, registration charges, service fees, fundraising activities and other lawful means, provided that all resulting income is applied to the Company's non-profit purpose.

5. Number of Directors: There shall be a minimum of __3__ and a maximum of __5__ Directors.
