G-CREST

GRENADA COASTAL RESOURCE AND ENVIRONMENTAL STEWARDSHIP TRUST Inc.

LETTER OF SUPPORT

For the establishment of G-CREST

Business name: _____

Date: _____

To whom it may concern

Re: Support for the proposed Grenada Coastal Resource and Environmental Stewardship Trust Inc, (G-CREST)

We, the undersigned, support the establishment of G-CREST as a non-profit organization dedicated to conserving Grenada's marine environment, promoting responsible use of coastal waters and supporting the wellbeing of local communities.

We recognize the importance of Woburn Bay and the surrounding southern bays to local livelihoods, tourism, recreation and the environment. We welcome an organization that works collaboratively with Grenadian communities, the yachting sector, local businesses and the relevant government authorities to:

- **Protect the marine environment** through conservation, pollution prevention and responsible boating practices.
- **Provide Agency for mooring registration and promote maritime safety** through appropriate mooring standards, independent inspections and maintenance.
- **Support local enterprise** by encouraging opportunities for Grenadian marine businesses, contractors and service providers.
- **Encourage community participation** in the responsible stewardship of shared coastal resources.
- **Facilitate constructive cooperation** with the authorities and other stakeholders on sustainable coastal management.

We believe that a properly constituted, transparent and accountable organization can make a positive contribution to the long-term environmental and economic sustainability of Grenada's coastal waters. We therefore endorse the establishment of G-CREST and its stated public-benefit objectives.

This expression of support is voluntary and does not create any financial or contractual obligation for the signatory, nor does it imply endorsement of any specific regulatory powers.
